

New Intercity Fleet

Stations and Signalling Modifications

DECEMBER 2018 COMMUNITY UPDATE – ADAMSTOWN STATION

The NSW Government is delivering a New Intercity Fleet to replace the trains carrying customers from Sydney to the Central Coast, Newcastle, the Blue Mountains and the South Coast.

Project update

Modifications to extend the station platform at Adamstown by 107 metres to support the introduction of the New Intercity Fleet are in progress.,

To date, we have completed 47 platform footings in preparation for the platform extension, signal relocation, rail and overhead wiring works.

Work will continue between 3 December and 21 December 2018 to construct the platform strip footing and of two over headwiring stanchion footings. This work will be done during standard construction hours of **7am to 6pm Monday to Friday and 8am to 1pm Saturday.**

You may notice equipment including an excavator, trucks, tipper and concrete trucks, a concrete line pump and hand tools. This work maybe noisy at times however we will take every possible step to reduce noise such as turning off machinery when not in use.

Work will continue at the station during scheduled Sydney Trains trackwork periods in early 2019. The community will be informed prior to the work taking place.

Adamstown Commuter Car Park closure

To ensure the safety of our staff and the community, the commuter car park will be closed from **6am Saturday 1 December 2018 to 6pm Saturday 20 April 2019**.

Keeping the community informed

If you would like to speak with the project team, please contact us at the details provided below. Thank you for your patience and understanding during this work.
